

Tasking Memorandum No. 00084

Memorandum For Commander District West

Subject: DCMC Response to Space Launch Broad Area Review

Date: December 21, 1999

Suspense Date: January 28, 2000

Target Audience: Commander District West

Requirement(s): The subject report contained a recommendation that DCMC increase in-plant technical support. After reviewing the staff package relating to actions necessary to sufficiently address risk in the key processes, I have decided immediately to increase staffing at our two major prime contractor locations. Due to the time sensitivity of this effort DCMD West should immediately initiate the following recruitment actions to support the launch programs:

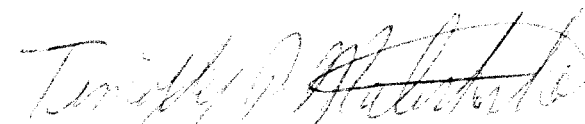

- DCMC Lockheed Martin Astronautics - 5 Engineers, 5 Quality Assurance Specialists
- DCMC Boeing Huntington Beach – 4 Engineers, 3 Quality Assurance Specialists and 1 Industrial Specialist.

Staff from the Headquarters Operations Directorate will brief this decision and the supporting rationale at the next Business Process Team and Resource Utilization Council meetings.

Point of Contact for Further Information:

ROBERT W. SCHMITT, Deputy Executive Director, Contract Management Operations (DCMC-0), (703) 767-2412 or DSN 427-2412, email: robert_schmitt@hq.dla.mil
